Up to this day, the game manages to claim a spot on most devices - now nearing to its 3000th level. Needless to say, the game showcases a sense of progress, which led the users to be more addicted. Candy Crush Saga involves matching three candies with the same color. With the game's limited moves, the player wisely swipes up, down, and sideways in order to complement the sweets. Doing so prevents the player from losing a life out of five given lives. Meanwhile, if the player is tactical, the player may achieve four matching candies, which may turn into a striped candy. Whether the move is made vertically or horizontally, these striped candies may clear a column or a row, respectively. If the player is feeling luckier, he/she may achieve a color bomb. These color bombs can eliminate all the complementing sweets currently on the board. On the other hand, each level gets harder because the goal varies along the way. The player may be asked to move certain game pieces to the bottom of the screen. It may also be that they need to achieve a certain score. Or, they may need to clear away hindrances like cream or jelly by making matches beside these barriers. The game may seem euphoric, but the game actually requires patience and strategy. Along these pretty intense goals, the game still lives up to its sweet theme. If the player loses all of her or his lives, it can all be regenerated over time. But, if the player can afford to pay, he or she can just opt to avail of in-app purchase. Meanwhile, the game also provides power-ups and specialty candies, such as striped candies, wrapped candies, and color bombs. These things can greatly help the players, especially in later stages of the game. Highlights: One-player game mode Exciting and refreshing levels Acquiring power-ups and specialty candies Journeying through different places in Candy Kingdom Vibrant and Compelling Graphics Candy Crush Saga has cute and colorful visuals that will make you crave for more. It is so inviting that you would want to further explore the Candy Kingdom with Tiffi and Mr. Toffee. While the game seems very light, each level gets harder which adds to its charms.
